### And What Have You

By BOB CRAIG

Other than the big stir of whether or not the television networks will or will not carry the debates between Jimmy Carter and Gerald Ford, the big campaign talk this week appears to be tax reform.

No one, including Carter seems to know just what Carter means when he talks about lowering taxes for some and raising it for others. But really when you get right down to it, it really does not make much difference because politicians have been talking tax reform for years. And, unless there is a drastic change you can just forget it.

Tax reform is something more talked about than done.

Most of the talk about tax reform concerns the federal income tax, because it is a tax that just about everybody pays. There is talk about local property tax reform, too, but somehow that never gets accomplished because what most of us mean by tax reform is to cut the taxes we pay even if the "rich guys" have to pay more.

It never seems to work out that way; and for us middle class Americans to think it will be merely wishful thinking.

Even Democratic presidential candidate Carter, who has been making a lot of speeches about "tax reform," comes across a little bit less than sincere when you take a look at his income tax statement.

Jimmy Carter last year filed an income tax statement showing income of \$136,926, a pretty good income for a peanut farmer.

On this income he paid slightly less than \$17,500 in federal income taxes.

Even those of us who never made an A in arithmetic can figure out that Jimmy Carter paid slightly less than 13 per cent of his income in federal income taxes. Most wage earners start out by paying 20 per cent of their paycheck. So how did he manage this? Well, Jimmy Carter did it very legitimately, but he had to use what he calls "tax loopholes."

He averaged his income for the last four years and took investment credit on some \$400,000 investment in new machinery at his peanut processing warehouse.

This is a "loophole" allowed by Congress in order to stimulate investment in capital equipment and in the long run create jobs, which no doubt the Carter peanut processing factory has been able to do.

We are not criticizing this. We have never heard President Ford criticize it. But it does seem odd that Jimmy Carter can pay less than 13 per cent tax on an income of \$136,926 and still be able to go out and make speeches against income tax loopholes.

The Democrats who have controlled Congress for a great many years have shed huge crocodile tears about the tax burden on the poor and the middle class, but when the committees get right down to it, they cannot escape the conclusion that every "tax loophole" written into the law is there for a legitimate reason and is likely to stay there.

We may see some reforms in the coming year but don't hold your breath waiting on tax reform. And this includes the tax bill just passed by Congress which is labled a "reform" bill. It will be years before we know what Congress has done to us this time. As Congressman Omar Burleson points out in his newsletter this week, "the Internal Revenue Service has not yet completed rules and regulations applying to the revision in the tax laws of 1969."

This is not an attack on Carter nor is it an edorsement for Ford, but simply an effort to point out the fact that one needs to find some other reason to support a candidate for president. Like so many other campaign promises, tax reform is just that — a campaign promise

## TWO GAMES TONIGHT—

# Pied Pipers Take Week Off; Prepare For District Opener

The Pipers, still suffering from their 20-19 loss last week to the Anson Tigers, will take this week off in preparation for their District 7-A debut next week with the Munday Moguls.

But Hamlin football fans will not be without action this week as Junior Varsity and Eighth grade games with Knox City have been added to the schedule. The Eighth grade game will get underway here at 6 and the JV game will start at about 7:30.

The Pipers, ranked as high as fourth in the state going into last week's contest with Anson, had trouble holding on to the football and gave up five fumbles. Three of these led to the three Anson touchdowns.

The loss knocked the Pipers out of the mythical Jones

County title with the three county teams going 1-1 in their games with each other.

Only two games are scheduled in District 7-A as most of the teams take this final week to prepare for their district opener next week. The big game this week will pit the Haskell Indians against the Stamford Bulldogs with the teams playing at Stamford. The other district member playing this week will be Aspermont and they will host the Spur Bulldogs.

In other action last week Aspermont defeated Jayton, 21-12; Haskell defeated Seymour, 42-0; Knox City defeated Archer City, 12-0; Munday defeated Rule, 33-7; Paducah lost to Spur, 31-12; and Rotan lost to Rochester, 41-0.

## IN MEETING MONDAY NIGHT—

# Council Discusses Problems Of Dogs, Trucks and Garbage

The Hamlin City Council spent a long session Monday evening discussing problems that had been before the council before — dogs, trucks and garbage. After much discussion, no decisions were reached on the problems.

A. B. Carlton brought the dog problem before the council and suggested that since the present dog ordinance does not seem to be

solving the city's problem with stray dogs, that the council might consider a lease ordinance.

The council discussed the issue but took no action.

The question of loaded trucks using the city's streets was brought up again at the meeting. It was pointed out during the discussion that the situation had improved immediately following the

## Deadline Nears to Register To Vote In General Election

Only the potential voters that do not have a voter registration card issued in 1976 need to be concerned with registration or re-registration to participate in the Nov. 2 general election, according to County Tax Assessor-Collector Roy Lane.

However, time is running out for voters who do not have the blue 1976 registration card and for persons who have recently moved to this county from another county, Lane emphasized.

Counting today, Thursday Sept. 23, they have only nine days to meet the Oct. 2 deadline for registration in time to vote in the

presidential election, he added.

Those persons who find they do not have the required, updated registration card may secure application forms from the tax office or from Bill Longley, County Democratic chairman or from their election precinct chairman.

The application can then be mailed or carried to the County Tax Office, but if mailed, it must be postmarked not later than Oct. 1.

## Cancer Society Urged To Serve Needs of Community

The Jones County Unit of the American Cancer Society met Monday evening, Sept. 13 at the Sixty-six Sirlin Cafe in Anson.

Don Howard of Stamford, president, presided.

Kye Hudson, district director challenged the volunteer workers to serve the needs of their community more fully in the future. Many services are offered to persons with cancer who need hospital beds, wheel chairs or other items. These are obtained by contacting a local member of the American Cancer Board or a local physician.

Memorials of \$258.80 already collected since the

April Crusade were reported.

Miss Arrie Barrett of Anson sent her resignation as Jones County chairman of the Memorial Funds and Mrs. George Brown was elected to succeed her. Miss Barrett has served continually for almost 21 years as a member of the county cancer board.

Others attending were Ann Sipe, Mrs. W. L. Hunter Jr., Mrs. John C. Bryant and Miss Jean Dillard, memorial chairman, all of Hamlin; Mrs. E. M. Pittman of Anson; Mmes. Homer J. Merriott, Mary Gay, LaVera Dodson, Eck Gillespie, George Rollins, Raymond Astin and Gladys Martin, all of Stamford.

Workmen in this picture are busy on the curved front which will tie the side walls into the front of the structure. Other bricklayers were working on

the side walls on the south side of the building when this picture was taken Tuesday afternoon. The forms at the left in the foreground are for the ramp required by the state for the handicapped. The contractor, Herman Bennett Construction Company, has said that they expect to have the job completed before the first of the year.

## FIFTY YEARS AGO (September 24, 1926)

Oil development in this territory seems to be one of the chief interests at present. The well in the southwest corner of Jones county, on the Joe Winters farm has increased its flow to 1100 barrels daily, according to recent information received.

It is estimated that more than 2000 people visited the well Sunday.

Three oil companies, Marian, Phillips and Milwest have made locations for three off set wells. Drilling on the Martin well, 12 miles northwest of Hamlin continues, and other operations in the county are going forward.

Much interest is being manifested in leasing land near Hamlin.

Extensive arrangements are being made for the Banquet which is to be given for the Orient Employees and their families Friday evening, Oct. 1, 1926, at the Round House. The purpose of the entertainment is a general get-together meeting of all Orient employees in Hamlin, and many of the division and general officers from San Angelo and Wichita will be present.

The Hamlin Fire Dept. has just contracted with the Merry Madcaps Stock Co. for a week's showing here, beginning Monday, Sept. 27 and continuing all week.

The show is coming here highly recommended to the fire boys, as they are only looking for first class attractions because they know that it does not pay to have any other kind.

This company is a new one in this part of the country, not knowing anyone, they want to make lots of friends and leave them feeling as they are friends to them when they leave.

This company is coming here and playing under the auspices of the Hamlin Fire Department and these boys are only a volunteer Department, receiving no pay, except what the people give them through donations—they need lots of little things—fact is, however that YOU need them worse than they need you. When your house is burning they come to your rescue and work hard to try to save your property—The are now asking your support next week—help them get that needed expense money. Come Monday night and help your Fire Boys out they deserve it. Adults 35 cents, child 10 cents.

Advertised at the Acorn Store, Inc. "We Save You Money on School Supplies," 250-sheet tablet, 4 cents; cedar pencils, each 1 cent; crayolas, 4 cents through 12 cents; crayons, 3 cent and 4 cent boxes; Jackie Coogan sets, 19 cents; loose leaf notebooks, each 8 cents; colored paper for correspondence, 12 cents; colored envelopes to match, 3 cents for pkg. of 25. ## TWENTY YEARS AGO (September 27, 1956)

Plans are progressing for entertaining an increased number of Hamlin High School ex-students this year at the second annual homecoming. The homecoming will be staged on Friday and Saturday, October 12 and 13, according to Cliff Reynolds Jr., president of the HHS Ex-students Association.

Committee chairmen in charge of various homecoming events as appointed by Reynolds are Mrs. George Poe, program; Mrs. Bill Shira and Mrs. D. C. Lock, registration; Mrs. Austin Poe, nominating committee; Mrs. Kenneth Riddel, after-game coffee; and Joe Ford, barbecue.

Herbert Lakey, Don Adair and Mary Ann Willbanks were named Pipers of the week from the student body of Hamlin High School.

The Pipers of the week are selected by members of the Pied Piper football team after the game each Friday night. Hamlin Junior High School's Mighty Mice started their football season on the right foot last Tuesday night with a victory over the Albany Juniors 14 to 7.

Hamlin's line played an outstanding defensive game. Linemen were Wayne Boatright, Gary Cooper, Bobby Ellison, Robert Rangel, Gary Williams, Henry O'Neal, Shorty Brewer and David Bonds. Backs were Michael Bond, Wesley Cummings, Jodie Ford and Robert Brandon.

Friday night's football game with the Merkel Badgers was a lollapaloozer, and, although the Pied Pipers outplayed and outgained the visitors, the best they could do

was hold the short end of a 39 to 32 score.

Scoring touchdowns for the Pipers were Right End Lane Flether, John Richey, Doug Ford, two touchdowns.

Hamlin High School's immense \$15,000 gymnasium and band hall is about 75 per cent complete, it was indicated this week by officials of the school.

Basketball practice will begin about the middle of November, according to Coach Harrell Blackburn, so the completion date of November 15 of the gymnasium will suit him and his boys fine, he avers.

Establishment of a friendly relationship and understanding between the parents and teachers was the theme of the first meeting of the new school year when the Hamlin Elementary Parent-Teacher Association began its regular session last Thursday.

## TEN YEARS AGO (September 22, 1966)

Bill Rountree, water superintendent for the Hamlin water supply system, was honored this week by the Texas Water and Sewage Works Association when he was cited as City Water Utility Man of the Month for September.

Rountree, a veteran of more than 40 years representing the city of Hamlin, was selected from more than 4500 members who make up the statewide organization.

With only three weeks remaining before Hamlin's 1966 Homecoming festivities begin, the Ex-Student Association is running in high gear during the final days of preparation.

The Homecoming parade will be at 10:30 Saturday morning, Oct. 8. Participants will assemble at the ball park on Southwest Fifth Street.

and one that is not likely to be kept.

For just about as many years as we can remember this country has spent more money than it has taken in and shows no indication that it is going to change anytime soon. As long as this situation exists, your tax bill is not likely to go down.

If our federal government is ever going to pay its own way then it needs to either cut back on spending or else increase its taxes. Since neither the Republicans nor the Democrats in Congress or in the White House seem to want to face up to this fact, you can expect to hear a lot of talk about tax reform but little action.

## FOR HIS FUTURE

A birthday party really thrills the children, and probably the climax comes when they blow out the candles, and make a wish. His wish would probably be for a bright shiny new toy, but you as a parent would wish for him the things that really count, such as good health, happiness, friends and along with these deeper and more serious things should be a prayer for him to have the right interest and relationship to God. You can help these things by taking him to church

# Pipers Knocked From Ranks Of Undefeated By Tigers, 20-19

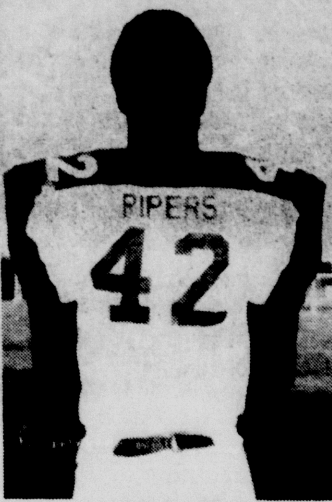

Fumblities struck the Pipers Friday night at Anson and knocked them out of the ranks of the undefeated as they lost to the Tigers, 20-19. The Pipers left the ball on the ground five times to set up all three of the Tiger touchdowns. The Tigers scored their first touchdown after recovering a fumble on the Piper one-yard line.

The Pipers, who were down 12-0 at halftime after losing three fumbles, came back strong in the second half to go ahead 19-12 with 11:55 left in the game. The Pipers were looking like a team that was going to blow their opponents off of the field only to lose another fumble and breathe new life into the Tiger offense.

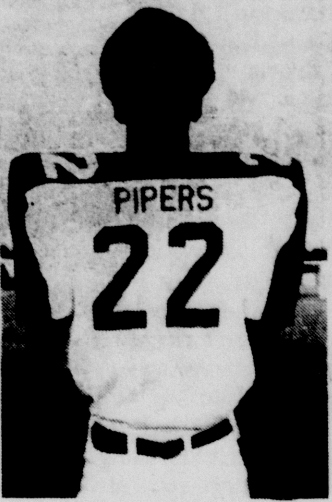

The Tigers put together their only sustained drive of the night following the fumble and drove 52 yards in nine plays and then converted their two-point play to go ahead 20-19. Finding a soft spot in the left side of the Piper defense, the Tigers ran play after play in the same spot with their quarterback, Lewis Washburn doing most of the damage.

With 5:33 left in the contest, the Pipers drove down to the Anson seven-yard line, but in four plays could get no closer than the Tiger two-yard line and had to give up the ball back on the five with less than a minute left in the game.

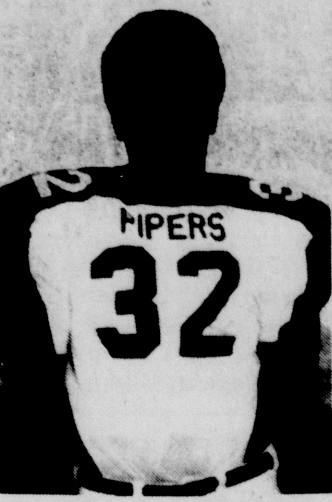

Thanks to the three first half fumbles the Tigers were able to put their 12 points on the scoreboard in the first

half with only 23 yards rushing and eight yards passing. The sputtering Piper offense could account for only 25 yards rushing and 22 yards passing during the same period.

For the night, the Pipers out rushed the Tigers 239 to 94 yards and had 41 yards passing to Anson's 33 yards but could not get the yards when they needed them. Both Halfback Delbert Thompson and Fullback Stanley Jones went over the 100 yard mark for the Pipers with Thompson carrying 23 times for 123 yards and Jones carrying 20 times for 102 yards.

Anson returned the opening kickoff to their own 42 but in four plays could net only three yards rushing and were forced to punt. Taking over on their own 17, the Pipers moved to midfield before losing the first of their five fumbles.

The Piper defense gave up one first down to the Hamlin 40 before tightening up and forcing the Tigers to punt again from the 38. Taking over on their own 10-yard line, the Pipers fumbled the quick pitch on the first play and Anson recovered the ball on the Hamlin one.

Fred Salinas was dropped for a yard loss on the Tiger's first play but then Washburn went over his right tackle for the two yards and the score. Delbert Thompson blocked the point after and the Tigers were ahead 6-0 with 4:32 left in the first period.

Following the kickoff, Hamlin ran two plays and fumbled again. This time

they gave up the ball on their own 28-yard line. It took the Tigers four plays to put six more points on the scoreboard with Mark Guffey going the final 13 yards around his left end. The Tigers tried for two points on a pass play but it fell incomplete. With 2:51 left in the first period the Tigers were ahead of the highly ranked Pipers, 12-0.

The Pipers had one scoring opportunity in the second period when Thompson blocked a Tiger punt at the Anson 42, but failed to take advantage of it and had to punt.

The Pipers picked up their only penetration of the first half following another Tiger punt as they moved from the Anson 45 to their 20 before giving up the ball on downs.

Mike Hymer opened up the second half for the Pipers by returning the kickoff back 23 yards to the Hamlin 38. Seven plays later Jones hit over his left guard, cut to the right and raced 38 yards to the goal line for Hamlin's first score of the night. He split the uprights to cut the Tiger lead to 12-7 with 9:34 left in the third period.

Anson returned the kickoff back to their own 44 but failed to make a first down and Salinas was tackled trying to punt.

Taking over on the Anson 44, it took the Pipers just six plays to put six more points on the board with Paul Reynolds passing to Ronald Brown for the score. In a play good for 19 yards, Brown took the pass at the 10 and went into the endzone untouched. The extra point try was blocked and Hamlin led 13-12 with 5:25 left in the third period.

Following a pass interception by Charles Brown, the Pipers had another scoring opportunity in the third period only to give up their fourth fumble of the night at the Anson 18.

After Anson could gain only three yards in three plays and were forced to punt, Charles Brown returned the punt to the Anson 41 to set up what was to be Hamlin's final score of the evening. With the help of a nine-yard Anson penalty, it took the Pipers five plays to score with Thompson going the final six yards around his right end. A bad snap forced an attempted pass for the conversion which

fell incomplete. The touchdown came on the first play of the fourth period and the Pipers led 19-12 with 11:55 left on the clock.

Jones intercepted another Anson pass to kill a Tiger drive and returned it to the Hamlin 39. But four plays later the Pipers left the ball on the ground again and the Tigers took over at their own 48.

Washburn, faking to his halfback, carried into the right side of his line four times in row for 18 yards and then let his halfback keep it twice for eight more yards. On the Hamlin 26, Washburn kept the ball two more times for nine yards each trip and then passed to Jerry Owen for nine yards and the score. Washburn carried again into the right side of his line for the two pointer and the Tigers went out ahead again, 20-19 with 5:33 left in the contest.

After the kickoff it took Jones and Thompson seven plays to move the ball from their own 49 to the Anson seven. But Jones was stopped for no gain on the first down try and then Thompson picked up four to the three. He carried again to the two, but on fourth down was dropped for a three-yard loss back to the five. Anson ran out the clock in three plays to take their first win of the season.

## DE Class Hears Grocer Speak On Shoplifting

Archie Tomlinson, owner of City Food Market, was guest speaker at the Thursday session of Distributive Education classes.

He spoke on some of the problems faced by businesses and cited first-hand experiences concerning shoplifters, short-change artists, and counterfeiters. He explained ways of catching offenders or preventing these types of crimes.

According to Carlton Taylor, DE teacher-coordinator, around 3 1/2 billion dollars is lost annually to shoplifters in the United States. This figure, he added, represents an approximate loss of 10 million dollars per day.

Taylor added, "Mr. Tomlinson's talked helped to make Hamlin's DE students more aware of the problems and it also will enable the students to handle the problems more effectively, should they be faced with them in the course of their on-the-job training."

## Neinda Philosopher Takes Sidelong Glance At the Effect TV Violence Has On Children

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One looks at violence on television this week. It's hard to tell what he sees.

Dear editor:  
According to child psychologists, whose kids don't seem to turn out any better than other folks' kids, there's too much violence on television.

And if it isn't stopped, they say, there's no telling what's going to happen when the kids get out into life. One expert has calculated that the average child, sitting in front of a TV set several hours a day, will, by the time he's 14, have seen 18,000 murders on the various crime shows, detective shows, westerns, cartoons, etc., not counting what happened to Little Red Riding Hood's grandmother or, if somebody forgot to change channels, what happened in some of Shakespeare's plays.

Personally, I don't know what effect TV has on children, outside of increasing their consumption of potato chips, and I have a

hard time explaining Watergate when you remember the people guilty of it didn't have television when they were growing up, but a man I read about the other day has figured out a way to cut down on the amount of TV violence they watch, he thinks.

Noticing his kids sitting around glued to the TV set one Saturday morning when they should have been, had they been normal like he was when he was a youngster, out playing cops and robbers or cowboys and Indians, he decided he'd make them earn the right to watch those cartoons, and save electricity at the same time.

What he did was mount a

bicycle on a stand in the TV room, with the rear wheel off the floor, and rig up a belt from that going to a car generator, wired to a battery. Wires from the battery were then connected to the TV set, as its only source of power. You want to watch TV? Get on that bike and pedal fast. I have not heard how that guy's children are reacting to his scheme, newspapers have a habit of failing to follow through on a good story, but I have a notion they're over at a neighbor's house sitting on the floor with their friends eating potato chips and watching television.

Yours faithfully,  
J.A.

## Remember Reddy Supplies the energy—but only YOU can use it wisely!

### Helpful Tips For your Dishwasher

- A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash one dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.
- Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.

### Water Heater Tips

- To assure long life and efficiency, the water heater tank should have a small amount of water drained periodically. Once a month should be adequate. The purpose of draining water from the tank is to prevent sediment build-up in the tank bottom.
- A water heater that's old, or too small for your family needs, can be wasteful, because it's working too hard and using too much energy to keep up with your hot water demands.

## Benefit Steer Roping Contest, Art Exhibit Set

POST — The OS Ranch Steer Roping, scheduled for Sunday afternoon, Oct. 3, will divide a world record cash jackpot of \$45,000 among the best from a field of 35 of the Southwest's top professional ropers.

The field for the \$10,000 first prize includes Charles Good of Elida, N.M., newly crowned 1976 world champion steer roper, and Roy Thompson of Tulia, 1976 runnerup for the honor and 1975 world champion.

Each of the ropers is putting \$1,000 into the jackpot with \$10,000 added. Thirty-eight cowboys and western artists will exhibit in the OS ranchhouse the same weekend with those attending the steer roping Sunday, or the jackpot team roping, invitational calf roping or the new NCHA approved cutting horse contest Saturday, Oct. 2 having the opportunity to view the art as well for the single admission charge at the cattleguard.

Last year the OS Ranch Benefit Steer Roping and Art Exhibit raised over \$40,000 for West Texas Boys Ranch at San Angelo.

The Ladies of the First Assembly of God Church will have a Garage Sale Friday and Saturday at 52 N. E. Ave. A.

The Hamlin Child Care Center is again filled to capacity after a lull through the summer months. It is open from 6:30 a.m. till 6:30 p.m.

The Center served a total of 57 children during the month of August, 27 White, 14 Black, and six Mexican Americans. This included drop-ins kept for families of the bereaved during services, a new courtesy extended by the center.

The Center is licensed for 35 children and has a present enrollment of 35.

When the Center was opened in 1974, it had a budget of \$30,000 and after two years it now has a budget for 1976-1977 of \$70,000. It has a staff of 12, seven full time and five part-time. Four staff members received Child Care Certificates or are now taking a 30 hour Vocational Child Care Training Course, from Abilene Independent

Schools. The staff members took this course on their own time. Four new staff members are taking this course now, that began Sept. 12.

The state requires education in child care and furnishes the staff to teach it. Proper diet and food preparation is also taught.

Children from all income groups and all races are charged according to income, with special consideration to children from one parent families.

Some new forms of teaching begun this fall include: Cowboy Center, complete with stick horses, canteens and vests; Beauty Shop has wigs, manikins, brushes and curlers; Homemaking Center has play stove, refrigerator, cabinet, sink, table and chairs, also prop boxes of food. Mama clothes, Daddy clothes, dolls and dollclothes, blankets; Music Center has

organ, records and record player, rhythm band instruments, and cable T.V.; Water Play—pans for water, measuring cups, funnels, wooden spoons, hand mixers, etc; Wood Work—hammers, scrap lumber, nails, saws, blocks with small plastic animals and people, numbers and shapes; Art—crayolas, scissors, paper, finger paints, paste, wooden puzzles, puppets; Science Center—magnets, magnifying glasses, plants, rocks and fish.

The children are fed breakfast, lunch and snacks. Each child is cleaned up to be sent home.

There is a birthday party once each month for all the children celebrating a birthday that month. Special birthday parties are welcomed if the parents or grandparents wish to send refreshments. The children make decorations and hats for the party.

Outside supervised play and games are permitted each day when the weather permits.

New playground equipment is added as time and money permits. The newest additions coming soon are a balance board and a play boat.

For the infants and toddlers there is a "potty training group."

Each day there is a two hour rest period for all the children. The children do not have to sleep but take a rest. During this time the children are read or told stories, listen to soft music, and usually all the children do sleep.

Donations are always accepted and needed such as dishes, toys, used towels or wash cloths or material for small cot sheets and small pillowcases, small children's clothes, baby furniture, silverware and dish towels. Visitors are always

welcome for a tour. A good time is from 9:30 till 11, or 3:00 till 5 p.m.

The Child Care Center is sponsored by the United Way.

## Statewide Brush Control Field Day Set Near Guthrie Oct. 7

GUTHRIE—Two famous Texas ranches and the Texas Agricultural Experiment Station will show the public next month some results of eight years in extensive brush control studies.

The annual Statewide Brush Control and Range Improvement Field Day is Oct. 7 this year at the Four Sixes Ranch near Guthrie in King County and at the Pitchfork Ranch 13 miles to the west in Dickens County.

The morning part of the Oct. 7 program is one of tours in air-conditioned buses that will depart the Pitchfork headquarters from 8:30 until 11:30.

A Dutch-treat lunch at the Pitchfork Hay Barn will precede the afternoon program that ends at 3 o'clock.

"Those persons touring the ranches," said Harold T. Wiedemann, "can see and hear about the latest developments in the Ex-

periment Station's eight-year program expanded research into chemical and mechanical means of brush control. They can also inspect what the Four Sixes and the Pitchfork have done in 25 years of extensive brush control."

Wiedemann, of the Texas A&M University Agricultural Research and Extension Center between Chillicothe and Vernon, is coordinating the field day for the numerous sponsors, among them the Texas Agricultural Extension Service and the Rolling Plains Economic Program (R-PEP).

Speakers after lunch will discuss, among other topics, the Experiment Station's brush research plan for the future, the effects of broomweed on livestock, and some current accomplishments in brush control research. Other sponsors are the Texas Section of the Society for Range Management, the Texas

A&M University Department of Range Science, the Brush Control and Range Improvement Association, private industry and the U. S. Soil Conservation Service.
